We design and manufacture
architectural lighting

VIETA | Villa Karhuniemi, Lohja

OUR PRODUCTS

All the products we manufacture can be tunable white, dim to warm, or fixed color temperature luminaires. They can be controlled either by DALI or Casambi. We design everything ourselves except for the screws, reflectors, and LED chips. The products are designed to be as simple as possible. In addition to achieving a minimalist design, this also aims to keep production costs as low as possible. The frames are made either from aluminum or stainless steel through milling and turning.

The surface treatments for aluminum are anodizing or powder coating. Stainless steel is either brushed or polished, with color options being natural, brass, copper, bronze, and gunmetal. The coating is done using an environmentally friendly PVD-coating method.

VERSATILE OPTIONS

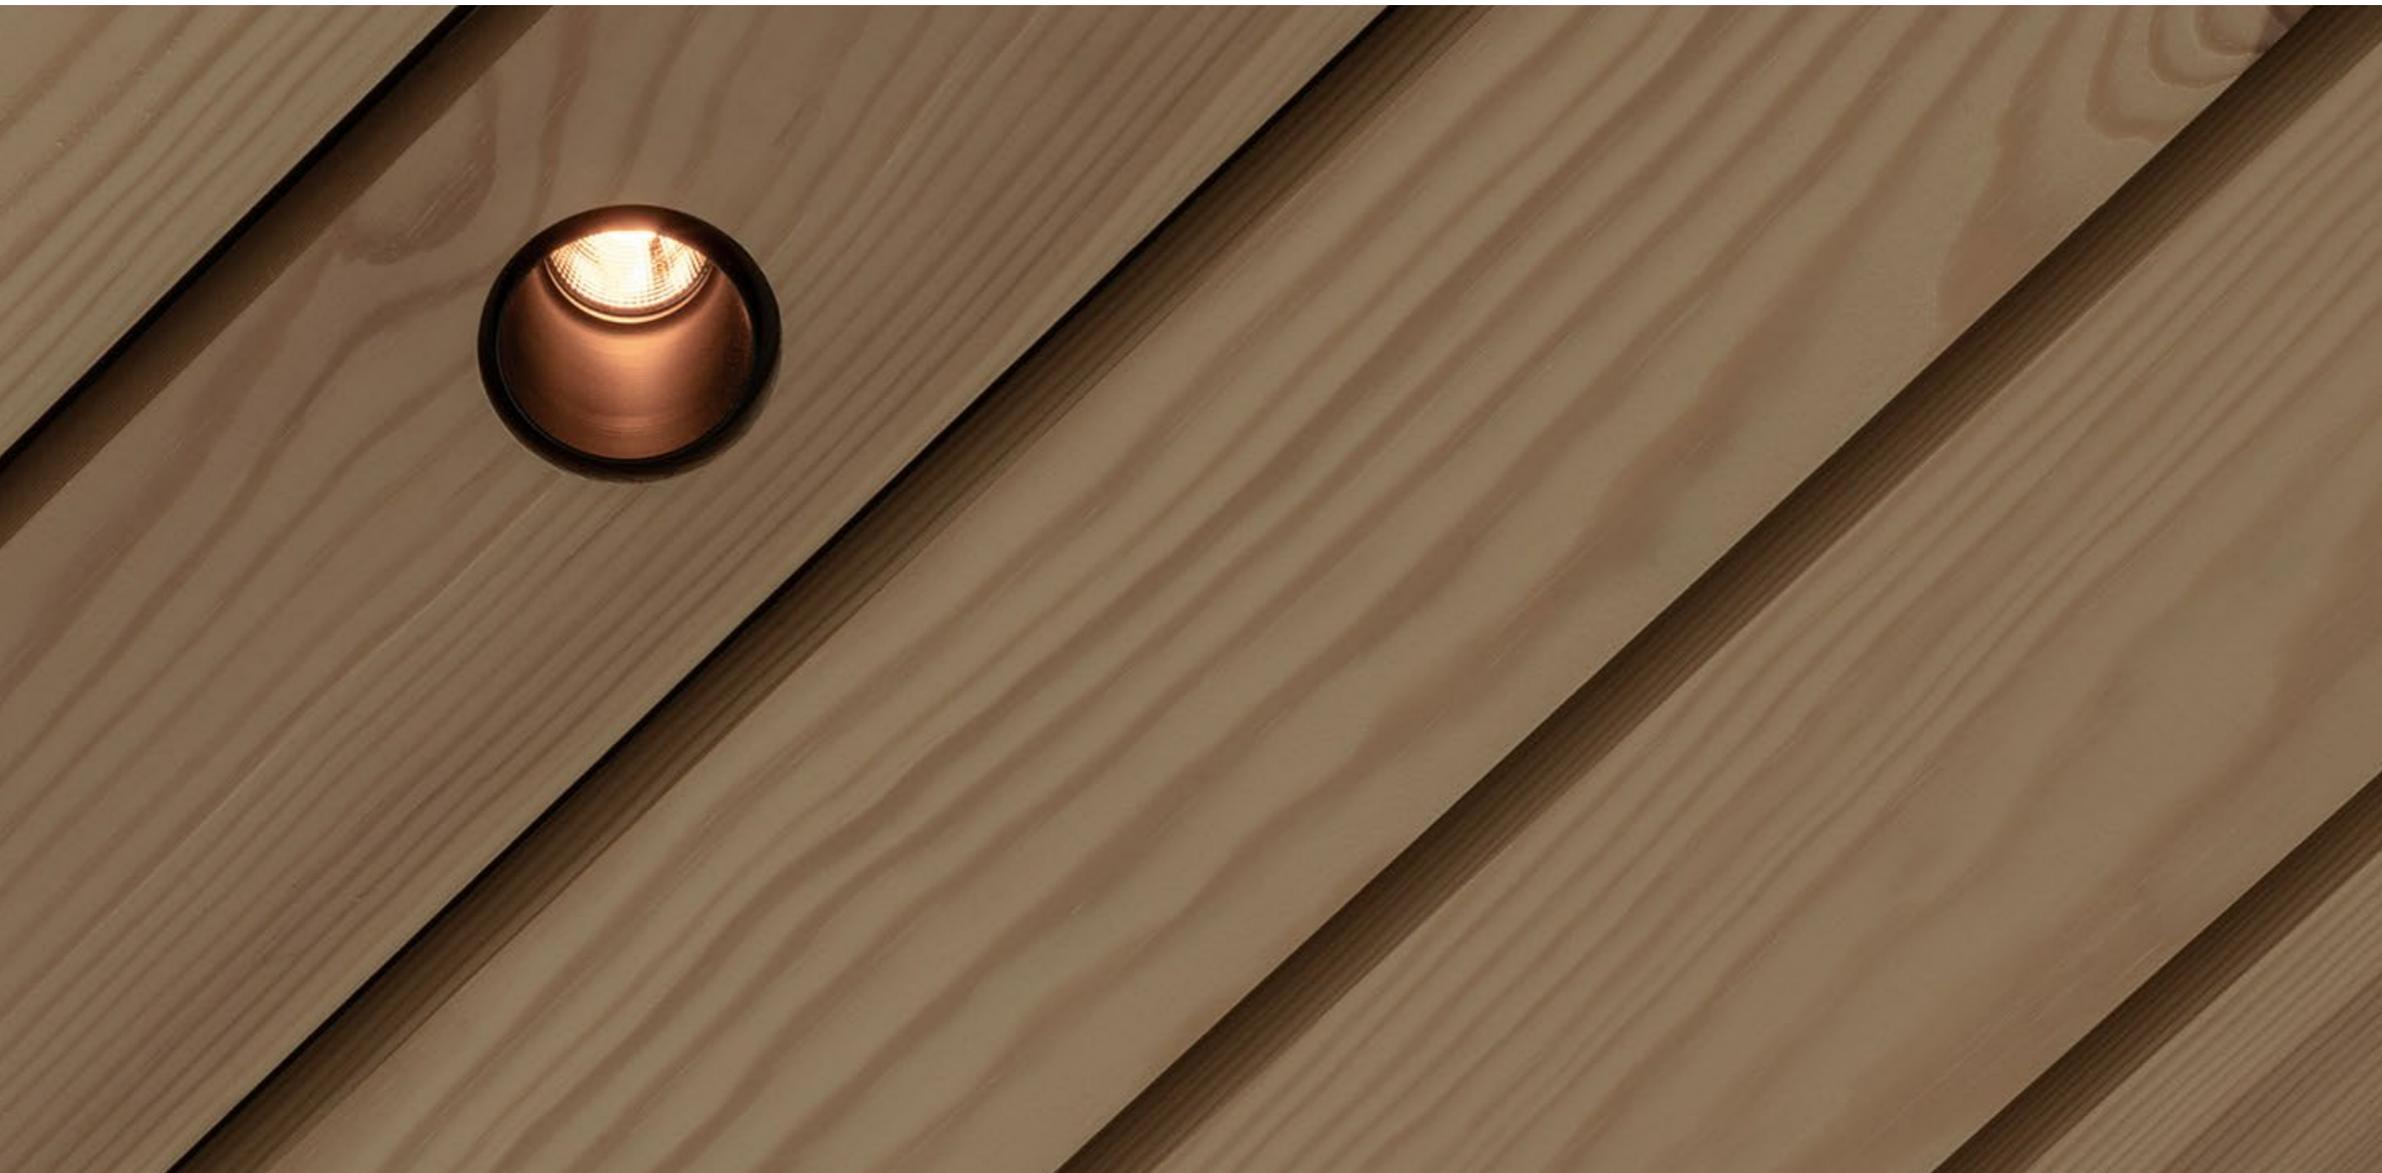

All Otherwise lighting fixtures can be installed framelessly into various materials, whether it's plasterboard, CLT, wood paneling, slatted ceiling, acoustic wool, and more. Additionally, every product is available for surface mounting or track installation.

You can also choose from square or round shapes to perfectly match your design needs.

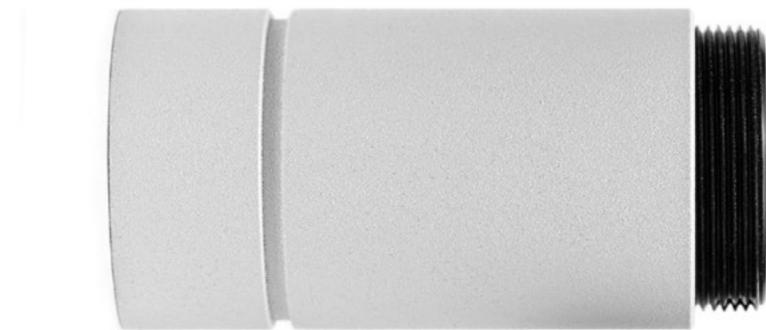

House MK5, Laajasalo

Guest cottage Candle, Saimaa

PISTE

Piste is a small but powerful light fixture, suitable for many applications due to its size.

Piste is an elegant frameless light fixture. Its body functions as a heat sink, allowing for high light output without compromising on performance despite its small size. Piste is available in both tunable white (TW) and dim to warm (D2W) options.

PISTE TW

SIZE	ø30x60mm
POWER	6W
COLOR TEMPERATURE	1800-4000K
OUTPUT	350-580lm
BEAM ANGLE	25 / 35 / 50°
IP	IP20
INSTALLATION HEIGHT	70mm

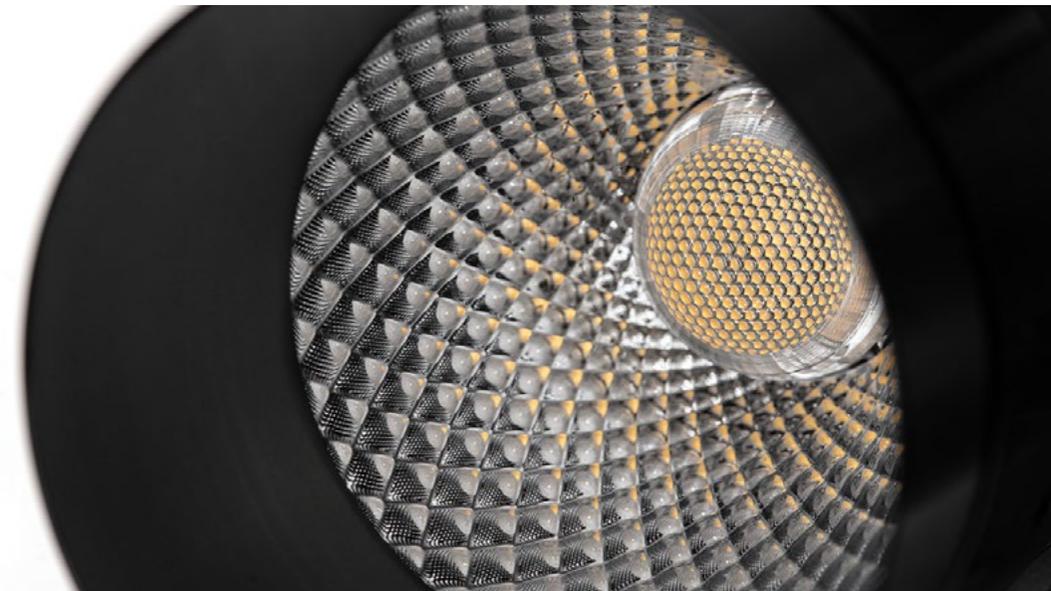

PISTE D2W

SIZE	ø30x60mm
POWER	6W
COLOR TEMPERATURE	1800-3000K
OUTPUT	16-660lm
BEAM ANGLE	25 / 35 / 50°
IP	IP20
INSTALLATION HEIGHT	70mm

VIETA

Vieta is suitable for use in slat, panel, CLT, plaster-board and acoustic wool ceilings

Vieta is a trimless modular light fixture. Its LED module can be selected to suit the specific purpose or replaced later with a different one. The light source options include 2700K, 3000K, 4000K, tunable white (TW), or dim to warm (D2W). If the frame is made of aluminum, the standard colors are black, white, and aluminum, but it can also be customized in any RAL shade. If the frame is made of stainless steel, the color options include brass, copper, bronze, and gunmetal. The surface can be brushed or polished.

VIETA TW

SIZE	ø50x90mm
POWER	9W
COLOR TEMPERATURE	1800-4000K
OUTPUT	700-1100lm
BEAM ANGLE	10 / 23 / 38°
IP	IP20
INSTALLATION HEIGHT	100mm

VIETA D2W

SIZE	ø50x90mm
POWER	9W
COLOR TEMPERATURE	1800-3000K
OUTPUT	39-998 lm
BEAM ANGLE	10 / 23 / 38°
IP	IP20
INSTALLATION HEIGHT	100mm

TIPPU

Tippu is one of our most adaptable luminaires. The length and diameter of TIPPU are always customized to fit the specific location, and it can be installed as either a pendant or a ceiling-mounted fixture. The color of Tippu is also freely selectable.

Tippu is technically the same light fixture as Vieta, meaning it is available with all the same light sources and materials as Vieta. It is a simple decorative light fixture with versatile technical features, making it easily integrable into home automation systems.

TIPPU TW

SIZE	ø60x400/800/1200mm
POWER	9W
COLOR TEMPERATURE	1800-4000K
OUTPUT	700-1100lm
BEAM ANGLE	10 / 23 / 38°
IP	IP20

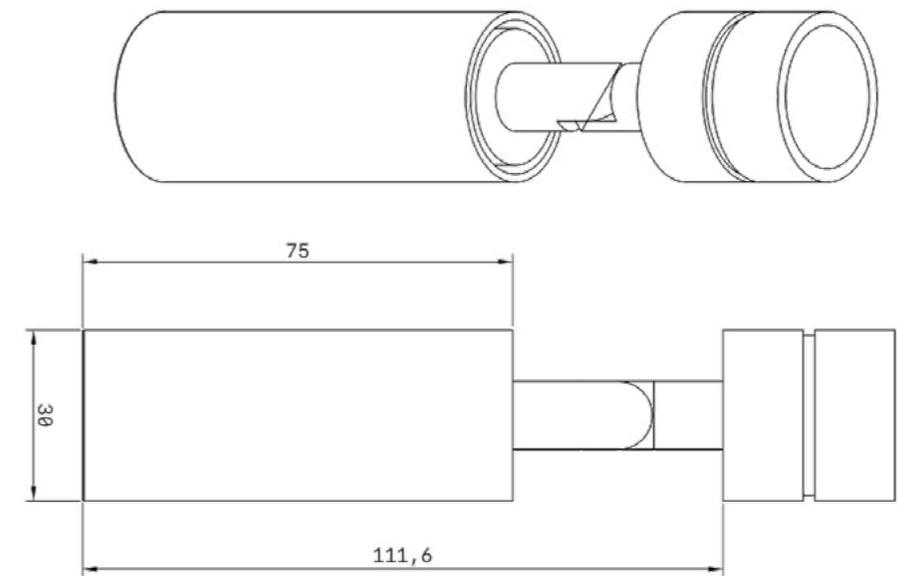

TIPPU D2W

SIZE	ø60x400/800/1200mm
POWER	9W
COLOR TEMPERATURE	1800-3000K
OUTPUT	39-998lm
BEAM ANGLE	10 / 23 / 38°
IP	IP20

TAIVE

Taive is a modification of our popular trimless spot Piste.

Taive is crafted with precision and minimalism in mind, blending seamlessly to the style and functionality of any space. Taive is available in both tunable white (TW) and dim to warm (D2W) options.

TAIVE TW

SIZE $\varnothing 30 \times 75 / 111,6 \text{mm}$
 POWER 6W
 COLOR TEMPERATURE 1800-4000K
 OUTPUT 350-580lm
 BEAM ANGLE 25 / 35 / 50°
 IP IP20 / IP44

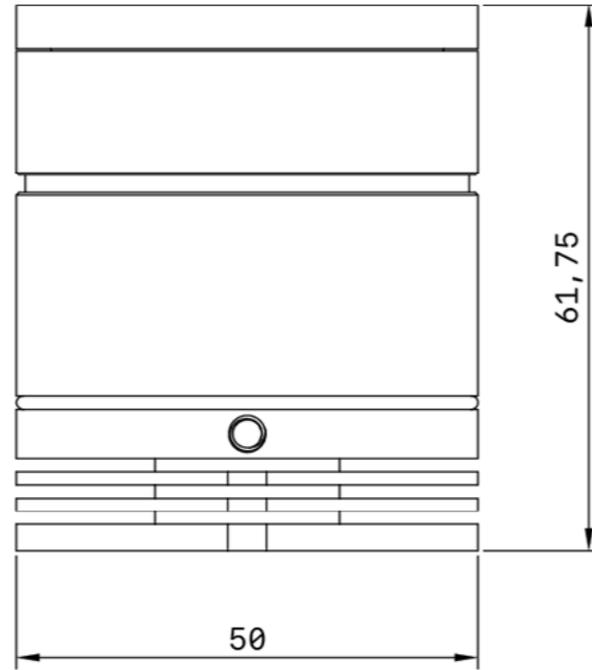

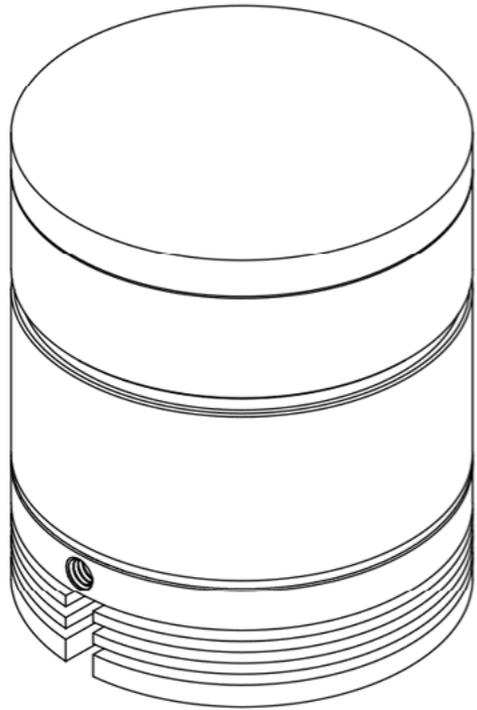

TAIVE D2W

SIZE $\varnothing 30 \times 75 / 111,6 \text{mm}$
 POWER 6W
 COLOR TEMPERATURE 1800-3000K
 OUTPUT 16-660lm
 BEAM ANGLE 25 / 35 / 50°
 IP IP20 / IP44

TASA

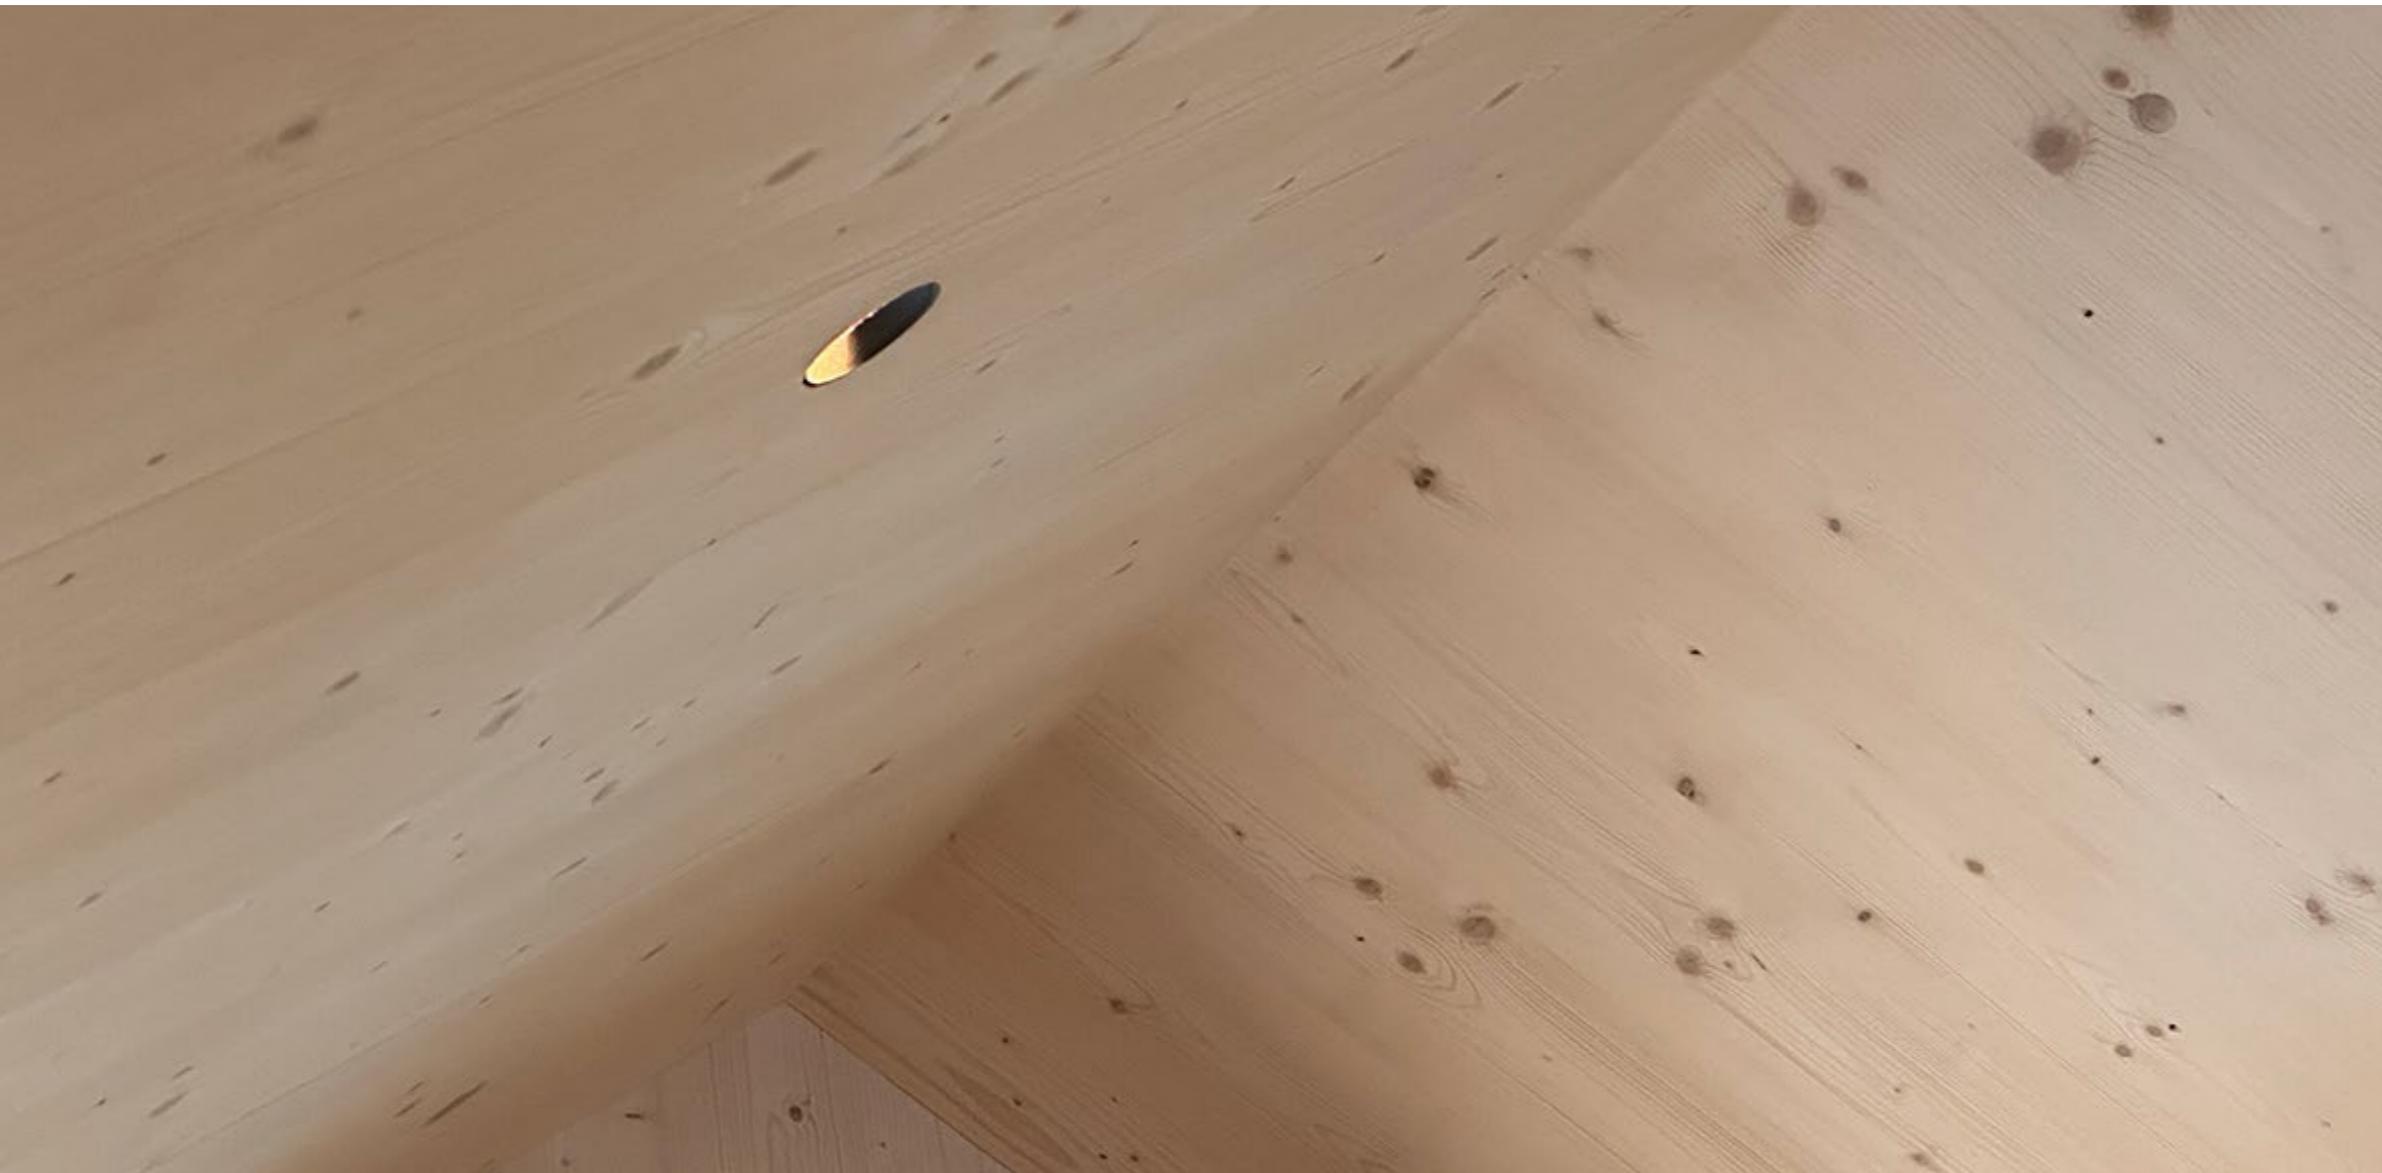

Tasa is a trimless floor light, suitable for indoor as well as outdoor use.

Tasa is a blend of minimalistic design and powerful illumination. Seamlessly integrated into the floor, Tasa remains unobtrusive while providing a strong, even glow. Adjustable color temperature and dimming options allow you to create perfect ambiances for any occasion.

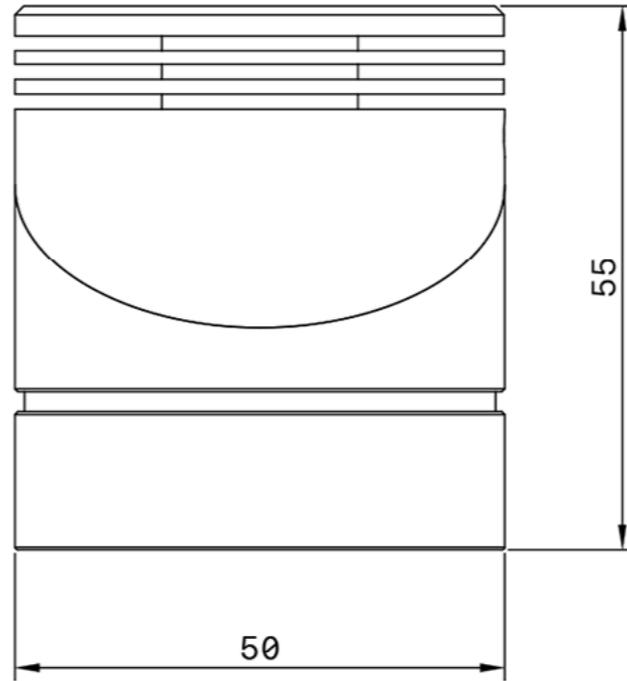

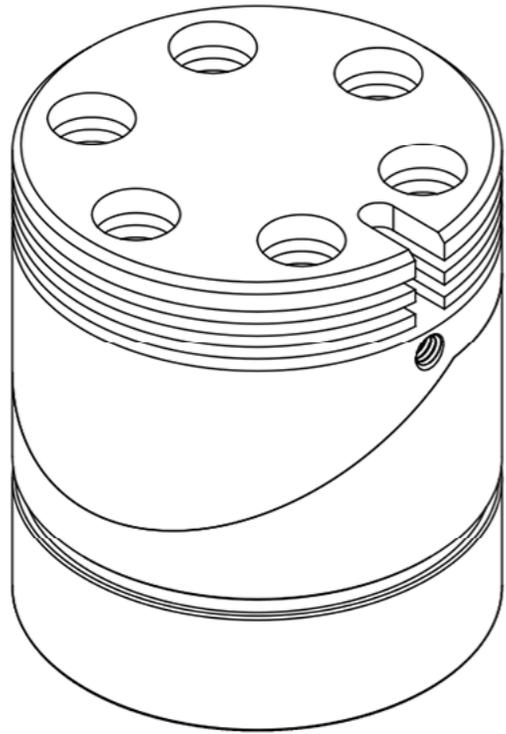

TASA TW

SIZE	ø50x62mm
POWER	9W
COLOR TEMPERATURE	1800-4000K
OUTPUT	700-1100lm
IP	IP20 / IP65

PIETA

Pieta is a trimless spot designed for sloped ceilings, allowing the light to cast directly down while the spot itself is at the same angle as the ceiling.

Pieta is designed to seamlessly integrate into the architectural lines of your space. Positioned at the same angle as the ceiling, this light casts a gentle, direct glow downward, beautifully highlighting the calmness of the lower ceiling.

PIETA TW

SIZE	ø50x55mm
POWER	9W
COLOR TEMPERATURE	1800-4000K
OUTPUT	700-1100lm
IP	IP20

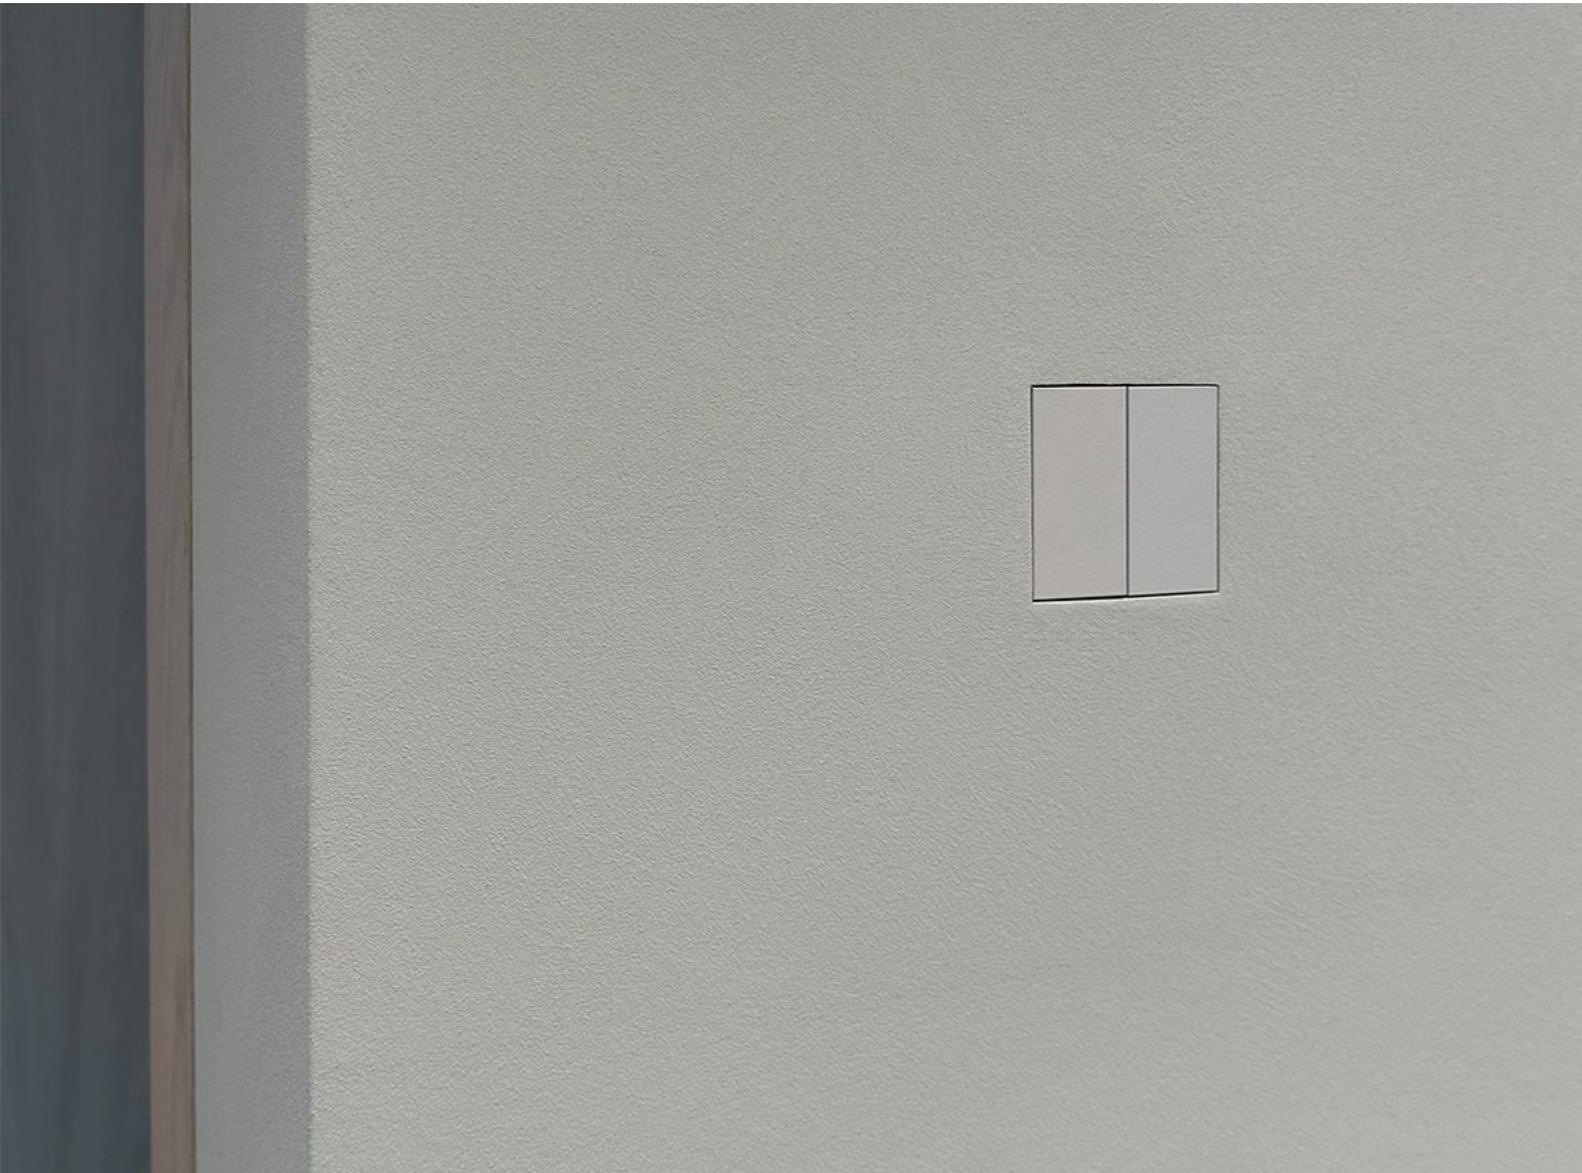

PIETA D2W

SIZE	ø50x55
POWER	9W
COLOR TEMPERATURE	1800-3000K
OUTPUT	40-1000lm
IP	IP20

SWITCHES

Our wireless switches combine easy installation with flexible usage options.

Our wireless switches are compatible with Casambi, Philips Hue, KNX RT, ZigBee etc. They can be used as surface-mounted, flush-mounted or furniture-mounted, meeting various needs and styles.

The finishes for aluminum include anodizing or powder coating, ensuring the switch's longevity and durability. Stainless steel offers versatility: it can be either brushed or polished, with color options such as natural, brass, copper, bronze, and gunmetal.

Otherwise designs and manufactures the switches, which means we can create fully customized solutions just for you. Whether it's a specific color, shape, or functionality, we provide a switch that is entirely tailored to your needs and preferences.

Our unique mounting system allows us to seamlessly integrate the switches into any material, such as drywall, concrete, CLT, paneling, and more.

SIZE 50x55x15mm
